Notes/Disclaimers	The values for each column heading for the current boundaries (887 polling districts, before subdivision), Original map (1,139 polling districts, after subdivision), and 1st Proposal (1,141 polling districts, after proposed redelineation) come from Tindak Malaysia analysis of EC's documents found on this website (https://myst.spr.gov.my/). The proposed boundaries of the 1st Proposal contains 1141 polling districts, of which two new polling districts appeared in Bintulu. EC has made contradictory polling district codes for the 1st Proposal (when comparing Rang Pelan Warta and Peta Syor). Users are encouraged to read all the notes for a detailed explanation of polling district evolution. While every effort has been made to ensure accuracy and completeness of the data, TindakMalaysia Network Services PLT is not responsible for errors and omissions arising from the dataset.
